

Monday (xxxx xx , xxxx)

Congratulations on your engagement! Your wedding day is going to be spectacular, a day to forever remember and a day full of emotion that you'll share with those close to you. You'll reminisce with the photographs and video on your anniversary and giggle about the hairstyles with your children and maybe your grandchildren. Jones the Florist would enjoy the opportunity to be a part of those memories.

We're event design specialists at Jones the Florist where we've been helping families with their floral needs since 1865, which puts us in a category all our own amongst other regional floral providers.

Floral selections for your special day should be a personal reflection of you and your groom. We specialize in creating, unique and innovative floral arrangements and décor that match the season, your individual personality, tastes and style. Your event is special and we want to make sure your wedding flowers are special too.

Please contact us to schedule a free consultation so we can introduce ourselves in person and show you some of our work. Our schedules are flexible to accommodate the busy schedules of brides like yourself.

We look forward to hearing from you soon.

Sincerely,

Mike Bourke
